

# Create & Customize Widgets in Notification Center

## Adding / Removing Widgets

- To add a widget, click on the **desired size** (if applicable), hover over the **widget** with the mouse (a green circle with a plus sign will appear), and simply click on the **widget** itself.

- To remove a widget, click on **Edit Widget**, and then, click on the  at the top left corner of the widget.

## Organizing Widgets

Widgets can also be arranged and organized in the Notification Center. Simply click and drag the widget to a different place on the right side of the screen. Notice how the Weather widget is being moved to a new location in the Notification Center.
